

GRIEVE DRUMMOND.

JANUARY 10, 1832.

Mr. EVANS, of Maine, from the Committee on Invalid Pensions, made the following

REPORT:

*The Committee on Invalid Pensions, to whom was referred the petition of Grieve Drummond, report:*

That, by an act, approved March 3, 1815, a pension of five dollars per month was granted to the petitioner, in consequence of a severe wound received in a sortie, from Fort Meigs, during the late war. The petitioner then belonged to the company of Petersburg volunteers. By the operation of an act, approved March 3d, 1819, which required the certificate of two credible physicians, of the continuance of the disability; the pension granted to the petitioner was discontinued; he being unable, or neglecting, to comply with the provisions of that act. On his compliance with these provisions, he was restored to the pension list in March, 1831. The present application is for the allowance of his pension during the period it was so suspended. From the testimony of physicians, and the description of the wound, there can be no doubt that the disability continued in as great a degree during that time as before or since; and, although it does not very satisfactorily appear why the petitioner did not comply with the provisions of the act of 1819, before referred to, the committee believe that he was justly entitled to his pension, and report a bill for his relief,
